Portfolio: sakibhosen.me (Interactive Lab)

EXECUTIVE SUMMARY

Performance-driven Network & Systems Engineer with dual MikroTik certifications (MTCRE, MTCNA) and a B.Sc. in Computer Science & Engineering. Extensive field experience in enterprise routing protocols (BGP, OSPF), VLAN segmentation, multi-tenant IPsec/WireGuard VPNs, and carrier-grade bandwidth management. Demonstrated operational leadership managing 150+ workstations at Square InformatiX and mentoring 2 intensive engineering cohorts with a **91.7% certification pass rate (22 of 24 passed)**.

TECHNICAL COMPETENCIES

Routing & Protocols:	BGP (eBGP/iBGP), OSPFv2/v3, MPLS, Static Routing, VLAN (802.1Q), VRRP, LACP Trunking, FastPath
Network Hardware:	MikroTik Cloud Core (CCR2004, CCR1036), CRS Switches, Cisco Catalyst, Ubiquiti UniFi, Fiber OLT/ONU
VPN & Security:	WireGuard, IPsec IKEv2, OpenVPN, PPPoE Server, L2TP, Firewall Filtering, Mangle Rules, NAT, DDoS Scrubbing
Bandwidth & QoS:	PCQ (Per Connection Queue), Simple Queues, Hierarchical Queue Trees, Burst Limit Tuning, HTB Shaper
Systems & Tools:	Linux (Ubuntu/Debian Server), Windows Server, Zabbix, PRTG, The Dude, Wireshark, Docker, Bash Automation

PROFESSIONAL EXPERIENCE

System & Hardware Support Engineer • **Square InformatiX Limited** — **Jun 2024 – Nov 2024 • Dhaka, BD**

- Maintained high-availability IT & network infrastructure for 150+ workstations, ensuring 99.8% corporate uptime.
- Administered core switching fabric, managed subnetting, dynamic DHCP pools, and isolated high-traffic broadcast domains.
- Implemented strict endpoint security, resolved L2/L3 bottleneck escalations, and automated workstation software rollouts.

Lead Technical Trainer (Network Infrastructure) • **Race Online Training Wing** — **Jan 2024 – Jun 2024 • Dhaka, BD**

- Authored and led rigorous technical training across **2 cohorts totaling 24 engineers**, achieving a verified **91.7% Pass Rate (22/24 Certified)** in official technical assessments.
- Built multi-router physical testbenches simulating real-world ISP link failures, BGP route flapping, and PPPoE authentication.
- Coached candidates in RouterOS CLI diagnostics, Wireshark packet capture, OSPF route redistribution, and QoS configuration.

Assistant Service Engineer • **Smart Technologies (BD) Ltd** — **Jan 2023 – Dec 2023 • Dhaka, BD**

- Resolved 400+ enterprise hardware and networking repair tickets with a 98% first-pass resolution rate within 48 hours.
- Conducted component-level hardware diagnostics, thermal benchmarking, firmware/BIOS flashing, and stress-testing.

CERTIFICATIONS & CREDENTIALS

MTCRE – MikroTik Certified Routing Engineer
ID: 2405RE1500 • Score: 82% • Valid: May 2024 – May 2027 • Verify: mikrotik.com

MTCNA – MikroTik Certified Network Associate
ID: 2403NA5874 • Score: 84% • Valid: Mar 2024 – Mar 2027 • Verify: mikrotik.com

B.Sc. in Computer Science & Engineering
Northern University Bangladesh • Graduated 2023 • Major in Network & Systems

NSDA Level-3 Certified Technical Trainer
National Skills Development Authority • National Pedagogy Standard • 2024
